

Yiyuan (Ian) Chen

Holder of Hong Kong Top Talent Pass | NYC, NY | (86) 15986619791 |
yc4772@columbia.edu <https://www.linkedin.com/in/ian-chen-925a50185/>

EDUCATION

Columbia University

New York, USA

Sep 2025 - Dec 2026

- Master of Art in Mathematics of Finance (Expected)
- Courses: Fixed Income Portfolio Management, Credit Analytics, Numerical Method in Finance, Financial risk and Regulation, Time-Series Modeling, Stochastic Processes, Stochastic Method

Cornell University

Ithaca, USA

- Bachelor of Science in Computer Science
Sep 2021 - May 2025
- Courses: Object-Oriented Programming and Data Structures, Artificial Intelligence and Machine Learning

PROFESSIONAL EXPERIENCE

United Overseas Bank

Hong Kong, China

PWM and Research Intern

May 2026 - July 2025

- Built AI Agent skills with sample data for daily news delivery, macro data updates, earnings note drafting, and stock screening.
- Deployed AI Agents locally to support investment research automation across data processing, report drafting, and workflow execution.
- Conducted macro and sector research on inflation, trade, PMI, money supply, and industry trends to support investment analysis.

Icarus Fund

New York, USA

Trading and Quantitative Research Intern

Jul 2025 - Aug 2025

- Developed a delta-neutral options strategy for U.S. equities, incorporating volatility surface decomposition.
- Incorporated implied volatility skew to control option structure effects; validated signal efficacy via cross-sectional regressions, isolating alpha from moneyness and crash-risk exposures.
- Backtested performance under varying VIX regimes using Sharpe ratio and t-stats; modeled transaction costs and applied volatility-adjusted weighting to simulate realistic execution outcomes.

Guotai Haitong Securities

Shenzhen, China

Quantitative Research Intern

May 2025 - Jun 2025

- Built a end-to-end time series prediction model with 1,200+ stock features in Python and PyTorch
- Automated batch backtests with volatility-aware labeling for 3+ market regimes; collaborated with PMs to interpret factor reliability across different volatility environments.

Solomon Global Asset Management

Hong Kong, China

Investment Research Intern

Jun 2024 - Aug 2024

- Developed predictive models for major Chinese index futures, analyzing 3+ years of historical data to capture short-term momentum, achieving a 63% directional accuracy in daily forecasts.
- Delivered A-share market forecasts that supported tactical allocation for a \$5M simulated portfolio, contributing to a 3.5% risk-adjusted return over a 2-month volatile period.
- Analyzed 4 years of high-frequency limit order data to evaluate liquidity risk under extreme conditions ; identified average 25-level bid-ask spreads of 66.75-68.5 basis points (90th percentile: 120-136)

Harvest Global Investments Limited

Shanghai, China

Private Equity Analyst

Jul 2023 - Aug 2023

- Conducted due diligence on 8+ target companies in the EV, clean energy, and energy storage sectors, analyzing financial models, unit economics, and growth trajectories to support investment decisions.
- Performed comparable company analysis on 15+ industry peers, benchmarking key financial metrics and valuation multiples to assess relative investment attractiveness.
- Prepared 3 sector research reports covering battery technology and charging infrastructure trends, analyzing market size, competitive landscape, and regulatory impacts.
